Solid Waste Authority Who We Are

The Solid Waste Authority, organized in 1991, is operated by a regional Authority Board (with representatives from participating communities) and its management, to provide efficient, economic, and environmentally responsible solid waste disposal services to communities and rural residents of Lincoln County. County residents currently generate approximately 4.6 pounds of solid waste per day (2007). Of that waste, approximately 17% (2009) is currently recycled and sold by the Authority, thereby reducing fees associated with landfill disposal. The remainder is hauled daily to the regional landfill south of Alamogordo. Recycling more of these items will keep monthly solid waste fees for member residents & Commercial to a minimum and continue to reduce the need for additional tax support.

Residential Garbage & Trash Collection

Greentree Solid Waste Authority is committed to giving member residents the best trash collection service possible for among the lowest fees in the region. We offer our customers several efficient, safe and environmentally responsible options for weekly residential trash and garbage disposal.

The three options available to Lincoln County residents, depending on their local community's collection system, include: collection carts, large volume closed dumpsters, and automated trash compactors.

Certain types of chemically-based household or construction waste such as asbestos, paints, paint thinner, household cleaning products, oils, gasoline, anti-freeze, fluorescent light bulbs, fertilizers, herbicides and pesticides are considered potentially dangerous and **should not be placed in the trash collection containers.** Call the GSWA office at 378-4697, or 1-877-548-8772, or email us at gswa@greentreeswa.org for advice on proper disposal.
